28 April 2004

Hon. Secretary Leandro Mendoza
Secretary, DOTC

Dear Secretary Mendoza,

A colleague of mine has requested me to secure a copy of the Board of Marine Inquiry (BMI) report on the Superferry 14 accident. The BMI personnel informed me that the last hearing was made on 19 April and that a report has already been forwarded to your office.

Further inquiry reveals that in previous incidents, the BMI took charge of releasing the report to the public and answering questions regarding the report from the concerned relatives of the victims and survivors, as well as those coming from the general public.

Barring any compelling reason to withhold the release of the report, may we respectfully request that a directive be issued to the BMI to proceed with the release of their report?

Thank you.
