Good evening ladies and gentlemen and thank you so much for being with us tonight as we celebrate your 10th year anniversary

bayantrade

Message From the CRO

It was on January 1991 when I formally left Aboitiz Shipping Corporation after 17 very fruitful, enjoyable and productive years in its service. Endika Aboitiz at that time asked me what my plans were and I told him "I would be stupid if I embarked on something which I didn't know anything about." The rest is history so to speak and February 8, 1991 has so suddenly become 10 years ago today.

Message from AOD President

I would like to thank the Aboitizes for the support which they extended especially during the early part of our operations, and during the trying times when some thought less of us. My gratitude knows no bounds. The Aboitiz culture runs deep in our organization and that is how much I value my years with them. Of course, what we are today we owe to you-our customers, suppliers and partners in the industry and government as well as our friends who are too many to be named individually, for the support you have continuously given us which has made possible for Starlite Cargo Xpress, Inc. to reach this milestone-its 10th year of service.

Company Events coming up? Tell Us!

Service excellence and professionalism was and still is our guiding vision. This enabled us to create goodwill everywhere and with everyone as a service provider, and saw us through our "birth pains" in our early years in the business.

Starlite Presiding AI Cusi welcoming everyone on the 10th year anniversary of Starlite

As our client base gradually expanded, this same guiding vision allowed us to cope with the growing demands of the business. I have been fortunate also to have and had people in my team who found personal satisfaction in closing a deal, making a delivery and simply servicing our customers in the best possible way we could. We were able to consistently win over and keep our customers because of our commitment and

dedication to our work. I cannot thank you all enough for your efforts.

Less than a year ago, we were faced with an enormous challenge when we acquired Aboitiz Haulers, Inc. from the Aboitiz Transport and Consumer Group, after it decided to divest itself of its interests in the forwarding business. The thought of making the acquisition work and be productive was doubly challenging. We were no failures, and we proved once again that we could go beyond our conceived limitations. Our cargo volume not only doubled but in fact even tripled but we were there, efficiently and reliably meeting our customers' demands and expectations. Again, thanks to all of you who made everything possible.

Ten years have passed, and god-willing another 10 years and even more will come by with us still serving you with the same zeal and dedication.

Please allow us the pleasure of welcoming and thanking you again 10 years from now in a similar gathering as this evening.
